Talk Notes – Pentecost Sunday

After Jesus went back to heaven, all the disciples carried on hanging out together. They were all in a house together for up to 40 days when something very strange happened: suddenly they house was filled with the sound of a fierce wind. Flames of fire rested over them but didn't burn them. All the disciples began to speak in different languages. This was the Holy Spirit.

Questions –

Do you have a Holy Spirit experience you would like to share?

The disciples where waiting for 40 days for something to happen. They did not know what to expect and may have had times of doubt. Lockdown has been for a similar time so how does it feel being locked away from everything waiting for it to end?

How would you feel if you were one of the disciples during that time?
